

RECENT ADVANCES IN SMOKE CONTROL SYSTEM DESIGN

This presentation will provide an overview of how the design of smoke control systems has changed over the years. It will also include recently compiled information on leakage rates of building components that are part of the analysis in stairwell pressurization systems and specification of design fires.

Overland Park Fire Training Center
12401 Hemlock
Overland Park, KS

09/19/24
12:00 PM - 1:00 PM

PRESENTED BY

Dr. James Milke, P.E.
Professor Emeritus of Fire
Protection Engineering
University of Maryland

Non-member fee: \$25 for lunch and 1 CEU credit.
