

The background of the advertisement is a photograph of a large fire being fought. A thick, white foam is being sprayed onto the flames, which are visible in the upper left and lower right portions of the image. The foam is being directed from the right side of the frame. The entire image has a subtle pattern of small, dark dots.

THE NEW STANDARD

in firefighting foam technology — worldwide

With our unique offering of both environmentally sustainable fluorosurfactant and fluoropolymer-free foam concentrates and traditional firefighting foam concentrates, Solberg leads the industry in firefighting foam innovation.

CONCENTRATES

A Unique Line of Firefighting Foam Concentrates for Class A and Class B fires

RE-HEALING™ Foam

Environmentally sustainable fluorine-free foam concentrates for Class B fires.

An innovation in firefighting foam, RE-HEALING foam concentrates are fluorosurfactant and fluoropolymer-free products. Formulated using high performance synthetic foam concentrate technology, RE-HEALING foam is designed to replace traditional AFFF and AR-AFFF foam concentrates and Fluor-Protein foams.

ARCTIC™ Foam

Aqueous Film Forming Foam (AFFF) and Aqueous Film Forming Foam – Alcohol Type Concentrate (AFFF/ATC™) concentrates for Class B fires.

Our line of ARCTIC™ foam concentrates contain no PFOS and are formulated with safety and performance in mind.

FIRE-BRAKE™ Foam

Environmentally sustainable wild land urban interface foam concentrate for Class A fires.

FIRE-BRAKE foam concentrate makes “water wetter,” providing faster water penetration into the flammable substrate and controlled foam expansion for maximum Class A extinguishing performance. It is also an essential water management tool. With the proper hardware and FIRE-BRAKE foam concentrate, a water supply can be expanded by at least 10 times its volume.

FIRE-BRAKE foam concentrate is designed and applied to Class A fires including wood, paper, coal, and rubber.

SOLBERG® HIGH-EXPANSION Foam

A synthetic based foam concentrate for use with medium and high-expansion foam generators on Class B fires.

MARKETS

Aerospace / Aviation / Chemical / Defense / Energy / Fire Services / Marine / Mining
Oil & Gas / Petrochemical / Pharmaceuticals / Pipelines / Solvents & Coatings / Utilities

SOLBERG brand foam suppression systems hardware is engineered by a team with over 200 years of combined, in-the-field, fire protection experience. Our experts know the real-world challenges. And they know how to optimize the design of our proven products to fit the individual needs of each customer.

HARDWARE

Custom Designed Hardware for accurate proportioning with high performance and reliability

As a custom manufacturer, we tailor firefighting hardware to meet your particular specifications. You can count on Solberg to work with you and deliver products that perform as needed, when you need them.

Our vast line of SOLBERG products includes the best solutions on the market.

System Tanks

Solberg offers a wide variety of System Tanks ranging from vertical to horizontal, pre-piped, atmospheric, and stainless steel, as well as the accessories you'll need to go with them. You can also count on us for your Foam Pump Skid equipment needs.

Discharge Devices

You'll find what you need among our array of dependable high-performance SOLBERG Discharge Devices. Whether you're in the market for foam makers, monitors, hand line nozzles or anything in between, Solberg will deliver the right device to meet your hazard requirements.

Proportioning Devices

When it comes to Proportioning Devices, we have the hardware you need to get the job done right — no matter what type of foam system.

Mobile Products

SOLBERG Mobile Products make getting to the fire easier. They also make your performance better and more reliable when you're there. Let us help make your firefighter more mobile.

APPLICATIONS

Aircraft Hangars / Crash Rescue Vehicles / Dike Areas / Docks / Heliports & Helidecks / Jetties
Loading Racks / Manufacturing Processes / Pumping Stations / Power Plants / Storage Tanks / Warehouses

PRODUCTS RELEVANT TO TODAY'S EVER-CHANGING DEMANDS

Solberg has developed some of the most advanced firefighting foam concentrates and custom-designed foam suppression systems hardware on the market. With industry-leading experts, worldwide experience and global reach, we continually pioneer firefighting foam concentrate technologies to meet the latest demands in the industry.

RE-HEALING™ and FIRE-BRAKE™ foam concentrates are innovative answers to the world's need for firefighting foams that fulfill stringent fire performance criteria, pass environmental safety standards, and do not contain persistent pollutants.

At Solberg, we are continually working to advance firefighting technology.

GLOBAL FOOTPRINT

Solberg is an Amerex Corporation company with a European heritage. We've grown steadily over the past thirty years, focused first on Europe, then expanding into the Asia Pacific Region. Today, Solberg has the expertise, capabilities and resources to serve the fire protection and firefighting industry throughout the world.

**OUR PEOPLE AND OUR RESOURCES
ARE THE DIFFERENCE.**

SOLBERG CULTURE

- Manufacture high quality and performance products
- Easy to do business with
- Partnering and relationships
- Deliver orders complete and on time
- Responsiveness
- Continuous innovation
- Encompass quality, health and safety
- Environmental responsibility

*Solberg is a global company that is a one-stop resource for
firefighting foam concentrates and custom-designed foam
suppression systems hardware, offering both traditional and
innovative firefighting foam technology. www.solbergfire.com*
